

July 2021

Dear Vendor,

We will be holding the next Annual Apple Harvest Festival on the first weekend in October. Vendors will have booths on Saturday only. The Onalaska Apple Harvest Festival is a project of the Onalaska Alliance.

We are looking for artists/craftsmen interested in presenting educational demonstrations of their craft or art. We also would like to invite business and food vendors who would like to sell their wares during our festival. We reserve the right to limit numbers of competing vendors so get your application in as soon as possible. All vendors must have all legally required licenses and certifications and must comply with all state, county, and local laws. This is a family event, illicit drug paraphernalia or pro drug literature will not be allowed, nor will sexually explicit items or items with violent content unsuitable for children.

The Harvest Food Court and Wine and Beer Tasting are a scrumptious array of local and regional foods ranging from local wines and cheeses to delicious culinary delights offered up by local chefs and farmers. It was well received in previous years and we will be expanding it this year. If you are selling food, you can check with the Lewis County Health Dept. as to their requirements.

Spaces will be approximately 10 x 10 and will be outdoors. You must supply the tables or other display items. You may reserve and pay for a double space. If you have a canopy or umbrella, it must be weighed down with at least 25 lbs. of weight on each leg. The festival has insurance but it does not cover you or your business. You may want to consult your insurance agent about additional coverage. Please fill out and sign the attached Terms of Participation along with the application and return them to the address below along with your booth fee.

Happy Festing,

Sarah Davis

Onalaska Apple Harvest Festival Vendor Coordinator
